

## UVONIX HOME OFFICE

With today's technology, it's easier than ever for some employees to work from home. The number of telecommuters or teleworkers is growing by 20% a year. With broadband Internet and IP Telephony, remote employees are able to work from home as if they were in the office.

Cost savings from a telework initiative can be realized from the following sources:

- *Reduced facilities overhead expenses (office space, insurance, maintenance, landscaping, parking, energy, office supplies)*
- *Reduced capital expenses (computing and telecommunications equipment, furniture)*
- *Reduced sick time*
- *Improved worker productivity (fewer interruptions; less time in transit)*
- *Decreased necessity to recruit*
- *Lower average cost to recruit*
- *Tax incentives*
- *Avoidance of fines associated with regulatory non-compliance*

The biggest problem seems to be rollout. With limited IT staff at most companies, implementing such a move, even on a trial basis, can be an overwhelming task. At Uvonix HomeOffice, we offer the following services:

- ◆ **Helpdesk Support** - We provide the first point of contact for the HomeOffice user with access up to 24x7 for both voice and data connectivity issues, as well as any other hardware or software problems.
- ◆ **IP Voice** - We can extend the features and functionality of existing PBX's to a remote office giving access to voice mail, call management features and directory services. Their phone functions like it did in the office.
- ◆ **Carrier Coordination** - We help select the proper Internet carrier and arrange for installation both at the corporate office and home office.
- ◆ **Secure VPN** - We configure a Virtual Private Network giving the home user a secure, encrypted connection to the corporate network.
- ◆ **Computer Support** - We can take responsibility of company-provided PC's providing software imaging, home setup and ongoing "break-fix" in home service.
- ◆ **Returns** - If an employee leaves the company, we retrieve the equipment, refurbish and upgrade if necessary and place back in inventory.

Not every job of course can be done from home. But after a quick walk around your office, you may be able to identify some potential candidates. Stop and ask them if they'd be interested in working part time or full time from home. You might be surprised at their answer. Then give Ed Rothacker at Uvonix HomeOffice a call at 614-272-7444 ext. 11, to arrange a no-cost evaluation of our services. We look forward to serving you!
